SUMEET PATIL

Week: Oct 26, 2024 – Nov 8, 2024

Task Accomplished:

1. Designed restful web services to tag transactions based on categories and tags.
2. Integrated Restful Microservices with database structure
3. Working on backend application for API gateway and load balancer for secure access to the application

Research on Tools:

1. Working on how to make API Gateway secured with token exchange and token expire policy
2. Working on Dashboard design to make it look aesthetic and easy to understand

The commit and development for the application can be accessed on github repo as below:
